DISCUSSIONS AID CLARIFICATION OF RED CROSS ROLE

Seeking harmony of viewpoint and common ground for cooperation, representatives of Upland Red Cross chapter, headed by Mrs. Mary Eckerman and Glenn Atwood, on Tuesday evening met in the city hall for general discussion of the chapter's relief setup and its relation to the organization of San Bernardino County Civilian Defense council. Upland city representative on the county council, Eugene G. Nisbet, was present to meet with the group.

Main theme of the evening's discussion summed up to a desire to eliminate duplication of effort and to coordinate to the best advantage existing administrative preparations with proposed measures.

RED CROSS READY

Red Cross representatives made it clear that the Upland chapter is "ready, willing and able", both with organization and personnel to step into a functioning relief role. Mr. Nisbet pointed out the value of a centralized authority and supply system as organized by the county council. As this is a time when everyone will pitch in, he assured the chapter that since it has the organization to conduct and supervise relief work, it could feel assured that it would be called upon to carry on if and when the need arose.

At subsequent conferences between Defense Council and Red Cross representatives, arrangements have been advanced toward working out details for the local chapter to function in cooperation with the county defense council. Working details have yet to be definitely clarified, it was made known, but every confidence is expressed that this will be accomplished swiftly, satisfactorily and efficiently.

Will Not Relax Night Patrol of City Reservoirs

Night patrols guarding city reservoirs, instituted several weeks ago as a precautionary measure, will be continued.

Proposal to erect guard fences around reservoirs, so wired as to set off warning signals in case of sabotage, was turned down by the city council recently. Not only was the cost of such fencing, estimated in the neighborhood of $5,200, considered too expensive, but it was also felt that, in view of defense priorities, it might be difficult to secure the wire and necessary materials.

Consequently, city reservoirs will continue to be under the vigilant watchfulness of guards at night.

Annual Meeting of Boy Scout Council Is Next Thursday

Annual meeting of the Old Baldy Council of Boy Scouts will be held in the Upland Woman's club house next Thursday, with the speaker being Dr. Elam J. Anderson, president of Redlands university.

Always an outstanding event for all leaders of the Boy Scout organization, the annual meeting will bring here many men in the large district served by the council.

A dinner at 6:45 p. m. will precede the annual meeting.

Penalty Multiplies When Citation for Speeding Ignored

Petulance and tears availed nothing when Harriete Norma Drake, 18, socialite Pasadenan and student at an exclusive school, appeared before Judge Mildred R. Puckett Tuesday on a month-old speeding charge.

Failing to respond to several notices from Judge Puckett's court, Miss Drake was arrested on a warrant charging her with failure to respond to her signed promise to appear in court to answer for the speeding citation. She was fined $25.

Perseverance Wins Enlistment in Army For Don Schilling

After one false start and two trys, Don Schilling, who has been employed at Pete Benton's service station, is finally off for the war, departing yesterday from Fort McArthur for training at Wichita Falls, Texas, after his enlistment in the army was at last accepted.

Ever since bombers of the Land of the Rising Sun struck out of the morning skies at Pearl Harbor, Don's one ambition has been to get in to aid the final setting of the rampant orb of empire. To that end he has tried to enlist in every branch of the service.

First, he enlisted in the marines, only to be rejected when sent in for final examination. Before returning to Upland, he also tried the army and navy recruiting offices in Los Angeles, but it was "no soap" at both with his marine rejection so close at hand.

But Don still had that sunset in mind, and kept heading for it. So he went to the army recruiting station in San Bernardino this week. There, he was accepted and sent to March Field for physical examination, which he passed this time. At last he arrived at Fort McArthur, and yesterday afternoon entrained for the Texas training camp.

MASONIC LEADERS ASSUME POSITIONS

New officers of the Upland Masonic lodge have been installed, ceremonies being conducted Monday night.

The following elective and appointive officers were installed:

Clare Blakeslee, worshipful master; Allan Barr, senior warden; Abe Kisner, junior warden; George Cassell, treasurer; Walter Horak, secretary; Reverend Hughes, chaplain; Sam Elder, senior deacon; Earl Dunning, junior deacon; Tom Nichols, marshal; Rewell Carlton, senior steward; Marvin Francisco, junior steward; Lyman Clark, tiler.

The installing officer was Paul Daggs and master of ceremonies was Orton P. Brady. The newly installed worshipful master has been a resident of Upland for many years. He was presented with a beautiful gavel, which was purchased by Mrs. Blakeslee and presented to him by the Junior Past Master Gerhart McKee. The junior past master was then presented with a past master's ring, which was purchased by Mrs. McKee and members of the lodge.

BUILDING FOR 1942 GETS EARLY START

Building in Upland led off for 1942 with three permits being issued this week by the building inspector's office.

Largest permit was for alterations and repairs, including the addition of two rooms, to the garage at the residence of Nelson Gray, 2008 North Euclid avenue. Contract for the work is in charge of W. H. Spicer, 1010 West Fifteenth street.

W. A. Norton, 742 North Euclid, was granted a permit for the erection of a two-car garage.

Permit for the erection of an outdoor sign was granted to Alan A. Couch, local car dealer, 308 North Second avenue. The sign is to be erected by the Foster & Kleiser Outdoor Sign company.

Adult Classes in Regular Session

Adult education classes which are National Defense work or closely related to it continue on regular schedule at Chaffey adult education school. Rooms have been prepared so that the classes may be conducted during blackouts.

Classes in Spanish, sewing, furniture making, auto mechanics, Americanization and commercial subjects are in session each week.

LOCAL NAVEL PICK LAGS BEHIND THAT IN NEARBY AREAS

First picking on the 1942 navel orange crop in the Upland district began yesterday, with fruit coming from the Florence Dundas and Harold Cook groves.

However, the picking season will not hit its stride as early as usual, as fruit in this vicinity is very slow in testing up this year, it was said by Harry V. Cavers and Charles J. Hayward, local inspectors for the San Bernardino county agricultural department.

Groves in the Upland district, they said, are very spotty in testing up at the present time, with the higher tests running around 7.5 and 7.8-1, while some run as low as 6.4-1. In order to approach a proper condition for picking, fruit should test up toward 9.0-1.

Packing going on in Upland houses at the present time is mostly of fruit which is being brought in from Walnut, Pomona, Claremont, Fontana and Ontario. At Redlands and Highlands picking has been under way for some three weeks.

More clouds and rain will mean continued delay in the start of general picking, with tests dropping again, Mr. Cavers said. Sustained sunshine will tip the trend upward and start the pick, he assured.

Rocks Bearing Greek Ciphers Rouse Brief Sabotage Suspicion

Greek letters on rocks in the vicinity of the College Heights district have been the nemesis of local police and county deputies during the past few days.

Discovery of the rocks bearing strange characters was made by residents west of town who found them under bridges in the neighborhood. At first, thought by some to be code directions for possible sabotage, the strangely ciphered stones were found to be nothing more than rocks which were in the process of getting a college education.

The meat of the matter was revealed when it was discovered that the Greek letters were a sign code long familiar to college undergraduates, and that the particular stones found adorned with the classic lettering were being used by Pomona college fraternity youths as a part of customary initiation activities and rites.

Road Camp Deserter Thumbs Police Car; Lands Ride to Jail

Momentarily thinking himself lucky to pick up a hitch so soon after hitting the highway, Floyd H. Conklin, 20, escaped from the Los Angeles county road camp in Cow canyon, found he had stubbed his thumb on the Upland police night patrol car near midnight Tuesday along Foothill boulevard as he sought to hitchhike to farther parts.

Lodged in Upland jail, Conklin was later returned to custody of officers from the road camp, who came and gave him a return hitch hike to the camp.

DISCONTINUE FIELD SAMPLE TESTS HERE

In the future, no more testing of field fruit samples will be done at the Upland office of the San Bernardino county department of agriculture, it was announced yesterday by Harry V. Cavers, senior inspector at the local office.

Yesterday was the last day that field sample tests were conducted by Mr. Cavers and Charles J. Hayward, assistant inspector. Hereafter growers will have all such tests conducted at packinghouse laboratories, as work of the Upland branch office will be confined to activities of a regulatory nature.

Don't Get In the Army's Way, Police Chief Warns Motorists

"The army has the right-of-way and civilian traffic must exercise extra caution, especially at intersections," said Chief of Police E. C. Mehl, in commenting on increased traffic hazards.

"Drivers approaching intersections should be cautious and not enter intersections without making sure that cross traffic will permit safe crossing," Chief Mehl cautioned. "Motorists should remember that United States army vehicles have the right-of-way at all times and are not required to stop for boulevard stops, whether there be automatic lights or the regulation red signs," he emphasized.

"Upland has had its share of near-collisions because civilian drivers have failed to wait for army vehicles to clear intersections, expecting that such vehicles would stop for boulevard signs," Chief Mehl pointed out.

"If one comes to an intersection and sees army vehicles approaching, either singly or in convoys, the best policy is to remain stopped until such military vehicles have cleared the crossing. Do not attempt to cross ahead of or through army convoys or work into the flow of traffic in the direction in which such convoys are traveling," he declared.

"The army is on its way; do not impede or endanger them or yourself," is Chief Mehl's good advice to all motorists.

BLACKOUT LAW IS BACKED BY LIONS

In a "Victory" meeting, the Upland Lions club yesterday assumed the responsibility of blackout wardens. Edwin Dean, Upland junior high school instructor, was appointed chairman of the wardens and he will be assisted by C. Ernest Olson and William Gilliland. The club members will be assigned to various sections of the city and it will be their responsibility to see that all residents become thoroughly familiar with all blackout regulations and to see that all regulations are observed during a blackout.

Fire Chief Jake Voth explained the need of thhe work and what should be done. Following his presentation, the club enthusiastically voted to undertake the project. Ernest Tweed Stone, another leader in the local defense effort, was also present.

The Upland city council has recently adopted a "blackout" ordinance and violators of its provisions are subject to a heavy fine.

A telegram was sent to President Franklin Roosevelt expressing the club's whole-hearted support and unity in the defense program. A similar telegram was sent to Gov. Culbert Olson. Letters of commendation for their efforts in the county and the city defense efforts were also sent to C. E. Grier and Gene Nisbet.

More than 4,000 Lions clubs throughout the nation this week also held "victory" meetings.

Gardiner W. Spring, Chaffey junior college president, climaxed the meeting in the Red Hill Country club house at noon yesterday with a timely address on "What Can We Do?" He effectively reported on the large number of Chaffey graduates who are in key positions in the armed forces and of the large number of men trained in the national defense classes.

He cited definite projects that could be undertaken by individuals in support of the nation's supreme effort.

Lieutenant Vincent Thill, commander of an army post near here, was among the guests and commended Uplanders for their friendly reception of the soldiers.

Henrym Busch was program chairman, with President Leigh Thompson in charge of the meeting.

LEAGUE READY IN ALL-OUT DEFENSE

An all-out defense meeting was held last night by the San Antonio Heights Community League, when approximately 50 members met in the Eighteenth Street school house and dispensed with all entertainment.

Air raid protection, aid to soldiers, purchasing of defense bonds, etc., were enthusiastically discussed.

Having received his instructions from C. E. Grier, head of the County Defense Council, and from Chief of Police E. C. Mehl, in charge of blackout enforcement in the Upland district, Dr. Chas. B. Taylor, League president, passed on the information to the League members.

Through the work of Edgar C. Pierce and his committee, the San Antonio Heights district was divided into wards and air raid wardens were assigned to the wards, with Dr. Taylor giving instructions as to their duties in time of blackouts.

Abe Kisner of Mont Vista resort, who is providing a siren mounted on a truck, told of the routes the truck will follow in giving aid raid alarms.

TO BUY BONDS

The group voted unanimously to report at the February meeting with 100 per cent defense stamps and bonds purchases. Each member of the several families, adults and children, is to report the purchase of either stamps or bonds.

The group also decided to aid with furnishing supplies for the soldiers' recreation center in Ontario, to be opened tomorrow.

Plans were made to cooperate in the tour of the citrus district planned for Sunday afternoon, when soldiers will be taken on a motor tour of the valley and the mountains. All who can supply cars are requested to notify the Ontario chamber of commerce.

First Aid Enrollment Booms As Never Before When 52 Begin Class Last Night

Starting of one of the largest standard first aid classes in the history of Upland Red Cross chapter, 52 persons assembled at the fire house last night for enrollment in the class under E. Tweed Stone.

Due to the large turnout, the class adjourned to the council chamber in the city hall. In comparison with first aid classes in the past year when it was usually difficult to get together a minimum number to organize a class, last night's showing was most gratifying in proving the willingness of people to do their share of the work that is ahead. And more are expected to enroll in the class, it was said.

NOW HALF UP ON 1941

During the entire year of 1941, 300 cards were issued for the completion of first aid training, while so far this year approximately 150 are enrolled in present classes in this district. In addition to the large class which started last night, there also is a separate standard first aid class being conducted exclusively for teachers in Upland Elementary school, with 19 taking the course. This class will start an advanced class as soon as the present work is completed, Mr. Stone said.

Appointed to be second lieutenants were: Eugene G. Nisbet, W. Merle Rash and Allan S. Barr, all of whom have led the company through its organization period during the past four months. Although the appointments become effective on December 23, official notice of them was only received this week.

With the arrival of ordnance and other portions of equipment this week, the company expects to be fully equipped within the next few weeks, it was said.

Enlistments are still desired by the company in order to bring its enrollment up to company strength, Lieut. Nisbet said. Recruits may make application to any of the officers or to the company headquarters office which is located in the rear of the old city hall and police station on Second avenue.

License Plates Must Be Secured Before 4:30 p. m.

1942 license plate business at Upland chamber of commerce continues to mount with each passing day. Monday opened the week, with 76 applications being the largest number in a single day in the last five-year period, but Wednesday soon took over the honors, when 79 license applications were taken that day.

Applicants are cautioned by Mrs. Adelaide Plum, assistant secretary, who is in charge of the license service that the service will be closed each day promptly at 4:30 p. m., as it is necessary to have time to do accounting for the day after the close of business.

Cooperation with the closing hour will be appreciated, and will aid in expediting the service. Saturday, January 17, will be the last day that license plates will be available to local residents at the chamber of commerce. After that date, they will have to go to San Bernardino or Pomona to secure them.

ROEN IN CAPITOL TO URGE PRIORITY RATING FOR U. H. A.

In the interest of the authority's application for a priority rating for the three local housing projects, Otto S. Roen, executive director of Upland Housing Authority, is in Washington, D. C., this week. Upon his return, definite action is expected in the housing program.

Contrary to rumored information, no contracts in connection with construction of Upland Housing Authority projects have as yet been officially signed by sub-contractors, it was declared today by Paul F. Schowalter, chairman of the Upland housing commissioners.

Definitely related to this is the fact that the general contract for the two projects in Upland and the one project in Guasti, although awarded to the William C. Crowell company of Pasadena, still has not been confirmed as yet by final approval from USHA or by the signatures of the principals. Consequently no sub-contracts can be in effect at this time, Mr. Schowalter pointed out.

Local Musicians Play for Troops Doing Guard Duty

A case of the entertainers also being the entertained occurred Wednesday night, when members of the popular accordion band directed by Louis Valterza went to an army camp near San Bernardino and presented a program of miscellaneous selections.

This particular camp, which is guarding important transportation equipment, is composed chiefly of Negroes and the rhythm of the music became irresistible. A number of them began to feel a tingling in their feet, but they could find no space in the room for dancing.

However, they had plenty of room for singing and they sang solos, duets, quartets and ensembles. One quartet was especially pleasing with several spirituals.

Members of the accordion band were Mr. and Mrs. Valterza, Mrs. E. Tweed Stone, Mrs. E. A. Detmers, Mrs. D. R. Kilbourne, Mrs. N. R. Jameison and Mrs A. G. Heimerl, the latter from Pomona. Accompanying them were Mr. Heimerl, Mr. Jamieson and Mr. and Mrs. W. N. Williamson.

South America Topic Friday Afternoon Club's Study

A study of several countries of South America, under the topic, "The People and Politics of Latin America", provided a fascinating program for members of the Friday afternoon club when they met as guests of Mrs. W. W. Majors, 418 East Fourth street, Ontario.

Mrs. Marie Jesson presented the program in a comprehensive review of the book bearing the title, "People and Politics of Latin America" (Williams), with supplementary comments of her own. Assisting in the program, Mrs. G. A. Hanson told of some of the places she visited during a tour of Peru and other countries.

Sketching briefly the history of the early settlement of the countries of Bolivia, Peru, Colombia, Venezuela, Brazil and Ecuador, Mrs. Jesson spoke at some length concerning the topographical peculiarities of the several countries and of their natural resources, most of them being rich in minerals and precious stones. In Colombia, which is nearest the Panama canal, are found real emerals, the finest produced anywhere in the world. Brazil, Mrs. Jesson pointed out, is particularly rich in precious metals, iron, coal, fine hardwood timber, and fertile land that produces many demand crops. The same productivity prevails in only slightly less degree in the other countries.

A natural phenomenon of interest was cited by Mrs. Jesson as she told of the meeting of the warm Japanese current and the cold Humboldt current from the Antarctic. When the waters of these two currents meet the fish in the cold water cannot live in the warm water, nor the warm water fish in the cold, so tons upon tons of dead fish are constantly being thrown upon the islands off Peru, and for ages millions of birds have feasted there.

Mrs. Hanson spoke particularly of Peru's largest city and capital, Lima; of Cuzco, Peru, once the capital of the ancient Inca empire, and LaPaz, capital of Bolivia. She told of seeing the ancient Temple of the Sun, a marvelously constructed Inca fort that still stands, and the San Marcos college, chartered as a university long before Jamestown was settled.

Mrs. Hanson also spoke of the culture of the people in Peru, of the beautiful homes in Lima, and of the gracious manner of living in that city.

Following the program, Mrs. Majors served refreshments to her guests.

In attendance were Mesdames G. A. Hanson, Welles T. Ross, Jay Dewey Harnish, Bryce Denton, Ross P. Garbutt, Willis A. Mackay, Isabel Neales, M. L. Chapman, Marie Jesson, Charles Latimer, A. L. Weber, H. W. Frederickson, Alexander R. Gemmel, W. W. Majors, and two guests, Mrs. Beardsley Ricard and Mrs. Mary Janney.

Auxiliary Unit Will Change Meeting to Increase Work

Time of regular meeting of the Upland unit of the Legion Woman's Auxiliary will be changed from the first Thursday evening to the first Tuesday, daytime.

This action was taken during the meeting of the unit held last evening in the Legion hall, with Mrs. W. J. Larkin, president, presiding.

It also was planned to devote the major portion of each regular meeting to Red Cross sewing.

This will in no way take the place of the regular Red Cross sewing day, held each third Tuesday.

Mrs. Jesse E. Monroe, Red Cross chairman, made a report of the Red Cross work done by the Auxiliary members and it was decided to hold an extra sewing day at the club house next Tuesday to make up for time lost during the holidays.

Mrs. Ethel Marsh asked for aid in behalf of the Department Past President's Parly in collecting books for soldiers' camps.

During the social hour that followed the meeting refreshments were served, Mrs. Larkin being hostess chairman.

Another Year of Growth For Bank of America

Resources of Two Billions Shown in New Statement

The year end Bank of America statement of condition reveals that in 1941 the growth of the institution was the greatest in its history.

Early in December, Bank of America became the first two billion dollar bank in the United States outside of New York City. As of December 31, 1941, total resources stood at $2,095,635,000, an increase of $278,100,000 during the year.

DEPOSITS AT NEW HIGH

Deposits totaled $1,908,383,000, a gain of $276,155,000 over last year.

The aggregate of loans and discounts outstanding was $914,569,000, which is $136,274,000 more than a year ago. Cash and securities amounted to $1,122,179,000 an increase of $145,148,000 over the previous year end.

After payments and accruals for taxes and other Government assessments of $8,227,000, earnings for the year were $28,665,000. From this total, $4,502,000 was reserved for depreciation of bank premises and other real estate, and amortization of bond premiums and $5,119,000 was set up in reserves and applied to the absorption of losses or the revaluation of assets. After payment of $10,680,000 in dividends at the annual rate of $2.40 per share on the common stock and $2 per share on the preferred stock, and after $1,322,000 in profit-sharing bonus to employees, capital funds were increased from earnings for the year by $7,040,000, before retirement of $3,000,000 of preferred stock from this amount on January 2, 1941.

NEW WAR RESERVE

Commenting on the statement, president L. M. Giannini stated that the board of directors decided at this time to commence the building of a substantial reserve as a cushion against unforeseen contingencies which may result from the war or postwar readjustments and other contingencies. For the nucleus of such a reserve, designated "reserve for war contingencies, etc.," one half of the net increase in undivided profits account from the year's operations, and the unallocated reserve, have been transferred to the new account, which now aggregates $11,284,000.

PREFERRED STOCK RETIRED

President Giannini further announced that on January 2, 1942, the preferred stock retirement fund will be increased to $4,302,000 by a transfer from undivided profits account, and $3,500,000 of this fund will be used for the purchase and retirement of 70,000 shares of the bank's four per cent preferred stock. This, with the previous retirement of preferred stock on January 2, 1941, will bring the total retirement of preferred stock to 130,000 shares, having a total issue price of $6,500,000, or 21.7 per cent of the entire outstanding issue.

"It is a matter of deep satisfaction," Giannini concluded, "that the bank is in a stronger position than ever before to pursue its policy of all-out aid to our war effort, and to continue its assistance to all lines of activity in California which are increasingly important to the general welfare of the nation at this time."

DEFINE WHO MUST PAY INCOME TAX

For federal income tax purposes, widows, widowers, divorcees, and married persons separated by mutual consent are classed as single persons. These, with those who have never been wedded, whose gross income was $750 or more for the taxable year—that is, whose gross income was as much as $14.43 a week for the 52 weeks of the year—must file an income tax return. Every married person, living with husband or wife, if no joint return is made, who has a gross income of $1,500 or more for the taxable year—that is, who has a gross income of as much as $28.85 a week for the year—must also file an income tax return. If the husband and wife each has an income and their aggregate gross income is $1,500 or more for the taxable year—that is, their aggregate gross income is as much as $28.85 a week for the year—they must file an income tax return.

Husband and wife living together at the close of the taxable year may file a single joint return (even though one has no gross income), or make separate returns of the income of each. If separate returns are filed, one may not report income which belongs to the other, but must report only the income which actually belongs to him. If a joint return is filed, the aggregate income disclosed is subject to both the normal tax and the surtax. The liability with respect to the tax on a joint return is joint and several. A joint return may not be made if either husband or wife is a nonresident alien.

If a joint return is not made by an agent of the taxpayers, it must be signed by both husband and wife and sworn to before a proper officer by the spouse preparing the return.

Where separate returns are filed by husband and wife on Form 1040, the joint personal exemption of $1,500 may be taken by either or divided between them in any proportion as agreed upon, but if either or both spouses make a return on Form 1040A, each spouse is treated as a single person and entitled to a personal exemption of $750 only.

Husband and wife may elect each year to file a joint return or separate returns. Where, however, joint or separate returns have been filed for a particular year, neither husband nor wife may, after the due date of return, file an amended return or returns on the other basis for that year.

NO A. A. A. CHECKS TO ENEMY ALIENS

All 1941 agricultural conservation payments earned on farms operated by nationals of Japan, Germany and Italy will be withheld by the treasury department, it was announced today by Marjorie M. Hambly, treasurer of the San Bernardino County Agricultural Conservation association.

The announcement from Miss Hambly came in response to numerous inquiries by people of these countries who have become naturalized citizens of the United States.

RETROACTIVE TO DEC. 7

"Effective December 7," Mrs. Hambly stated, "the treasury department will retain any agricultural conservation payment check payable to any person who is a national of Germany, Italy or Japan, or any country occupied by the armed forces of those countries.

"This means that the delivery of checks to persons whose names indicate these nationalities must, of necessity, be delayed until it is ascertained whether the payee is a citizen of the United States," she pointed out. Farmers who have earned 1941 conservation payments and who have not already received their checks, are urged to call at the county office immediately if their names indicate nationality similar to that of any enemy nation or occupied country.

NEED CITIZENSHIP PROOF

"When calling at the county office," advised Mrs. Hambly, "It is necessary to present both driver's license and proof of United States citizenship. This may be in the form of a birth certificate, or citizenship papers. In instances where the person was born in the United States, but no birth certificate is available, affidavits of citizenship from persons prominent in public life will be acceptable for this purpose. Such persons are urged to obtain birth certificates in the near future, however."

REGRET DELAY

"The necessity for this delay is regretted because of the great number of citizens who will be inconvenienced, but their cheerful cooperation is expected during the emergency," Mrs. Hambly predicted.

The county office of the Agricultural Conservation Association is located in room 200, Professional building, San Bernardino.

As of May, 1941, the aircraft industry of the United States had a backlog of $4,305,217,856.

CHAFFEY STUDENTS IN WAR ACTIVITY

That the activity of Chaffey graduates and former students already in the war is extraordinary was revealed by President Gardiner W. Spring in a report this week.

Mr. Spring showed that hundreds of former students of Chaffey are already in war activity. Many men are officers in the army and navy, and many are well-trained mechanics, inspectors, designers in the aviation industry.

Study shows that some 47 former Chaffey men are in the army air corps, 37 of which have attended Chaffey during the last four years. This number reflects the success o fthe Civil Aeronautics training and the airplane construction training which have been offered in the college aeronautics department.

Twenty-five men are in the navy air corps. Twenty-nine men are known to be instructors in the various army and navy fields. Many have been instructors at private flying fields and in the C. P. T.

More than 100 men are serving in the army, navy, coast guard and marines at present. One tenth are already officers in the service. Three Chaffey teachers are officers in the army. Former students are attending Annapolis, West Point and the various flight schools in the country.

In the airplane industry more than 350 men are known to be employed as mechanics, inspectors, lead men, designers, and in other activities.

Besides students who have been trained at Chaffey, 282 adults from the National Defense classes which operate now in three shifts throughout the day and night, have been placed in industry.

Presbyterian Women In Church Session Hear Two Speakers

A business session in which a number of important matters were considered and two interesting talks featured the all-day meeting held Thursday at the church by the Presbyterian Women's association.

During the executive board meeting, opened at 9:30 by the president, Mrs. Herbert S. Bailey, routine business was transacted and decisions made to be recommended to the general meeting held at 11 a. m.

The women voted to prepare to care for 150 or 200 beach town evacuees, should the necessity arise. Mrs. Bailey named Mrs. Ray C. Norton chairman of a committee of six to be in charge of the project.

The sum of $5 was given toward Upland's quota of the Red Cross emergency fund.

Announcement was made that the Riverside Presbyterial will meet in Riverside on Jan. 20.

Mrs. Henry M. Busch told of the annual meeting of the Council of Church Women to be held in Whittier on Jan. 15 and 16.

Mrs. Wm. I. Doole had charge of the prayer calendar, and Mrs. J. Emery Sargent read Christmas greetings from San Anselma seminary. It was voted to contribute $5 to the seminary.

Excerpts from an article written by the Hon. Francis B. Sayre, U. S. high commissioner in the Philippines and discussing the valuable work done there by the Silliman Institute, was read by Mrs. Gertrude Hall.

At the noon hour Mrs. A. C. Beattie's group served luncheon.

SPEAKERS HEARD

Dr. Shriver, former Board of Missions secretary in charge of work among immigrants, spoke during the afternoon session, telling of work among Hungarians.

Accompanied by Mrs. Earl H. Johnson, Mrs. Carl M. Rausin sang "Bless This House" and "I Heard a Forest Praying". Mrs. Merrill H. Moremen conducted the devotional service.

The afternoon speaker, Miss Ellanore Ewing, field secretary for the National Board of Missions, in charge of 10 western states, made an informative and inspiring talk concerning medical missionary work in Sitka, Alaska; in Puerto Rico, Cuba and desert Indian reservations. She pointed out that the confidence of such people is quickest gained through the healing of their bodies.

In opening her address Miss Ewing emphasized the necessity for every woman to put aside nonessentials and to seriously take up her share of the burden being borne today by the Christian people of the world.

Grier Backs Local Government; Condemns "Gimme" Attitude

San Bernardino county asks nothing from the State of California and will be self-sufficient in its civilian defense activities. That is the essence of the stand taken by C. E. Grier, chairman of the county board of supervisors, in refusing to make San Bernardino county a party to the attempted raid by California counties on the state treasury.

Commenting on the action proposed by the counties, Mr. Grier, in a letter to M. C. Merrell, vice-president of the County Supervisors association, said:

"The program, as outlined in your communication, calls for a tremendous expenditure of state funds throughout the 58 counties of the state on a pro-rata basis without regard for the real issue, namely, military defense of the United States, which will require that all of our resources be made available for this purpose. The purchase of a great amount of automotive equipment with the additional drain on our short rubber reserves to scatter about in outlying areas should not be permitted by the federal government.

"Our every effort should be directed toward winning this war, and to win it, it will be necessary for us to get over the 'gimmies' and accept the responsibilities placed upon us by law.

"For many years I have been an exponent of local government and have said on many occasions that local government is the foundation of our American democracy. The time has come when we must prove democracy and that the counties can accept the responsibilities of civilian defense without demands upon the legislature of the state for the dissipation of our financial resources on such an unsound program as one pro-rating the appropriations to the counties of the state, when most of our counties have little, if any, importance of military value. Valuable equipment, locked up in 58 counties, out of reach in an emergency would be useless, and to appropriate funds to counties just because they happen to be political subdivisions of the state is wholly unsound.

"To follow a program of political patronage at a time when our nation is facing the gravest crisis of its history is so unsound that I feel certain when the legislature is acquainted with the real situation that confronts this nation and the sacrifices we must make to win this war, the members of the legislature and the state administration will say to the counties of the state that if they are unwilling to assume their responsibilities we should abolish county government.

"We are willing to assume our responsibility. We are not making any demands upon the legislature because under the Emergency Declaration we have the authority to organize and coordinate the civilian defense program which we consider adequate to meet our requirements."

Cucamonga Pupils Will Collect Old Papers Next Week

With pupils in the three rooms competing, the Cucamonga Central Parent-Teacher association will hold an old paper collection next week.

The old paper is needed in national defense work and any kind, newspapers, wrapping paper, writing paper, etc., that can be baled is wanted.

Decision to make the paper collection was reached during the meeting of the association held Wednesday afternoon in the school house.

Mrs. Walter Buettner, president, presided, and Henry Klusman, Jr., presented the program speaker, P. M. Hebblethwaite, state highway patrolman. The official discussed traffic safety and pointed out important rules for safe driving.

During the social hour refreshments were served by the fifth and sixth grade mothers, Mrs. Clarence Beekman and Mrs. Jack Casson being in charge.

Ask Ranchers To Save Paper Bags For Boy Scouts

Upland Boy Scouts of Troop 3 have been busy making paper pickups during the past few weeks, and Scoutmaster H. A. Hixson reports that the troop now has on hand an accumulation of between six and seven tons of old papers and magazines.

Ranchers are asked to save paper bags such as those which they receive fertilizer and sulphate of amonia and which are free of tar in their makeup. Scouts can handle these as there is a market for them in ton lots, and the boys will be glad to pick them up from the rural districts.

However, the Scouts cannot pick up accumulations of loose waste paper, as they have as yet no means of handling such scrap material. Arrangements may be made in the future to take care of such paper odds and ends, but not for the present, Scoutmaster Hixson said.

Persons desiring to have Boy Scouts call for old newspapers, magazines or paper sacks may phone Mr. Hixson, 315-185, or E. E. Hawthorne, 315-155.

Local Agricultural Inspector Shifted To Gate City Post

Charles J. Hayward, junior inspector, who has been serving in the Upland office of San Bernardino County Agricultural department, is to be transferred to the San Bernardino office of the department to take the place of Jeff Richards, Colton, senior inspector, who has been granted leave by the board of supervisors to enter the army air corps for the duration.

Mr. Hayward's transfer to the county seat post received high recommendation, he having passed all examinations for the post. His experience is backed by the fact that he is a graduate of the University of California in Berkeley, where he studied entomology as well as general agriculture.

Action granting the leave and filling the vacancy was taken at the meeting of the board of supervisors yesterday. Mr. Hayward, who is a resident of San Antonio Heights, is scheduled to take up his new duties on January 15.

Bridget's face lit up. "Very well, ma'am", she replied, "I've wanted to do that to some of your friends for years".—Pacific Eliectric Magazine.
